

BIOMEDICA

BIOMEDICA AND COMPLEMENT SYSTEM

Key Areas & Products

- Sample Stabilization & Standards
- Functional Complement Research
- Complement Detection & Profiling

Reagents & Sera

ELISA

Multiplex Assays

Proteins

Antibodies

BIOMEDICA

SAMPLE STABILIZATION AND STANRADARDS

- Specimen Stabilizing Solution
- Human Complement Standards
- Human Reference Materials
- Complement-depleted Sera

FUNCTIONAL COMPLEMENT RESEARCH

- Complement Activators (Cobra Venom Factor, Heat-aggregated Gamma Globulin)
- Purified Complement Proteins and Complexes
- Complement Activation Fragments
- Complement Regulatory Proteins
- Complement-depleted Sera
- Animal-compatible C3 Activity Detection
- Proteins and Peptides for Research

COMPLEMENT DETECTION AND PROFILING

- Single-marker ELISA assays
- Multiplex Panels for Complement Analysis and Corresponding Reader
- Monoclonal Antibodies
- Polyclonal Antibodies
- Biotin-labelled Antibodies
- Mouse-specific Antibodies for Preclinical Research
- Antibodies for Western Blot, Immunofluorescence, Flow Cytometry
- Bulk Formats
- Customized Antibody Formulations on Request
